

Springboard Fellow Position Description

The Niagara Arts & Cultural Center (NACC) is a multidisciplinary cultural center seeking a creative and engaged emerging arts professional. A successful Springboard Fellow will be a strong communicator and collaborator who can also be an efficient self-starter and, most importantly, have a passion for the arts and community engagement.

The Fellow will support a variety of initiatives that strengthen the NACC's visibility, organizational capacity, and connection to the community. Projects will include contributing to marketing and communications efforts, helping revitalize the NACC's social media presence, and assisting with systems that preserve and document the organization's visual arts assets and gallery history.

Through these projects, the Fellow will gain hands-on experience in arts administration, storytelling, digital engagement, cultural preservation, and audience development while working within a vibrant multidisciplinary arts organization. The position offers a unique opportunity to contribute creative ideas, build professional skills, and help shape how the NACC shares its story and engages the community.
